

Custer County Republican

VOL. XXVIII

BROKEN BOW, CUSTER COUNTY NEBRASKA, THURSDAY, APRIL, 7, 1910

NO. 44.

MAPS, SHOWING CUSTER COUNTY AND THE WAY DIVISIONISTS WANT IT.

Custer Co. containing 642 square miles is in the northwest corner.
Corn Co. containing 468 square miles is in the northeast corner.
Rose Co. containing 462 square miles is in the southeast corner.
Albany Co. containing 459 square miles is in the south central.
Arbor Co. containing 561 square miles is in the southwest corner.

The Grand Island County Division Convention.

The county division convention held at Grand Island last week accomplished no more in harmony than had they held their Convention some place in Custer county which would have saved them from fifty to one hundred miles of extra travel.

The lines drawn were not satisfactory to the entire delegation present and less than half of the township in the county were represented.

It was another in which Dick Bregg dominated the conven-

tion and had his own way.

The lines drawn propose a fine county cut on practically the same lines adopted last year, except a pear shaped county is mapped out that extends from Broken Bow south to the county line and is twelve miles wide at north end and thirty one miles at the south end and contains about 460 square miles with O onto the prospective county seat.

Broken Bow is left in the north west portion of the county with Merna and Anselmo. The county proposed in the proposed division in the north east with Sargent

the prospective county seat extends to the corporation lines of the city of Broken Bow as does also the proposed county in the northeast with Sargent the prospective county seat extends to the corporation lines of the city of Broken Bow, as does also the proposed county in the southeast with Ansley the prospective county seat. The Ansley county would contain 642 square miles while the southeast was cut down to 468 square miles.

The proposed lines will not prove popular with the voters of the county—in fact no lines can be drawn that will accommodate as great a number of the people of the county as are accommodated by the present boundaries of Custer county—while a few are a long distance from their county seat the majority of the people can reach Broken Bow without much inconvenience and make the trip both ways in the day and most of them in half the time. are two portions of the county that are not so favorably situated owing to the geography of the county but it is not just to the whole people of the county the territory should be cut into five parts merely to accommodate a very small minority that are most fortunately located relative to this county seat. The REPUBLICAN prebids the question will not come to a vote as we think that a majority of singdrs can not be secured for the proposed division in more than one of the proposed counties.

THE CITY ELECTION

City Hall Bonds Carry With Good Majority.

The city election Tuesday passed off quietly there being no particular contention as far as far as we could learn over any the questions at issue. The vote recorded was but little more than half the voting strength of the city and but for the friendly contests for councilmen it would scarcely been known an election was being held.

The question of bonding the city for a city hall met with but little opposition and was carried with a good majority.

The following are the votes for each of the candidates:

Mayor.	
D. R. Rockwell.....	393
City Clerk.	
R. D. Pickett.....	220
